

—Take Off

This is a game for any number of players. Each player needs one set of number cards and a copy of this sheet.

- One player shuffles their cards and places the pile face down on the table in a pile.
- The top card on the pile is turned over.
- Each player takes the same card from their pile and places it in one of the boxes on their sheet.
- Once a card is placed it cannot be moved.
- When 5 cards have been placed, each player subtracts the two digit number from the three digit number.
- The winner is the player with the highest answer.
